EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please amend the claims as follows:

Claim 8, line 1, change "5" to "7" to correct an obvious typographical error.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants arguments submitted January 16, 2004 have been considered and found to be persuasive as to the showing of unexpected results in an oil having 1-6.3% by weight of cobalt salt, essentially as claimed. In addition, while it is generally known to use cobalt salts such as cobalt naphthenate as an adhesion promotor, there is no teaching or suggestion in the prior art to use 1 to 53% by weight cobalt naphthenate in a naphthenic oil wherein from 0.002 to 0.7 grams of cobalt per kilogram of steel in the metallic cord is deposited to the cord. Accordingly, the prior art of record does not teach or suggest a method of treating a metallic cord essentially as claimed, wherein a metallic cord is contacted with a naphthenic oil containing 1 to 6.3% by weight of a soluble cobalt salt and depositing to the cord from 0.002 to 0.15 grams of cobalt per kilogram of steel of the metallic cord or a method of treating a metallic cord wherein a metallic cord is

contacted with naphthenic oil containing from 1 to 53% by weight of cobalt naphthenate and depositing to the cord from 0.002 to 0.7 grams of cobalt per kilogram of steel in the metallic cord.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
